

ANTI-STATIC SPRAY #955

- Prevents mis- or non-feeding of material on press.
- Counteracts electrostatic charges that attract dust & particles that cause spots on negatives & prints.
- Will not cause draw sheet to shrink or swell.
- Also for use on scanners, image processors.

INDUSTRIAL WHITE GREASE LUBRICANT

- High industrial-grade grease lubricant for applications where metal meets metal.
- Provides long-lasting, non-contaminated lubricating film with excellent heat resistance.
- Helps keep printing machinery running smoothly.
- Assures longer lifespan, high productivity.

LINT & DUST REMOVER #804

- High-powered, moisture free cleaner.
- Use on keyboards, screens, and other delicate items.
- Attached tube allows for pin-point accuracy
- Ideal for use on lenses, slim negatives, projectors, enlargers, light tables, and optical parts.

SILICONE SPRAY #945

- Non-staining, durable coating for smooth operation.
- Stops squeaking, sticking; protects surfaces.
- Dries rapidly with no greasy or oily film.
- Lubricates screen frames, vacuum beds, printing platens.

SILICONE LUBRICANT #77

- Economical combination lubricant and release agent.
- Stops squeaks, prevents corrosion, reduces friction.
- Reduces cleanup time, friction on paper cutters, knives, drills, etc.
- Helps print shop equipment to last longer.

FDA SILICONE SPRAY #946

- Stops sticking and binding; protects equipment.
- Reduces friction; speeds cleanup of parts and equipment; increases production, reduces downtime.
- FDA approval; can be used in food processing.
- Remains dry; non-staining.

GLASS CLEANER #50

- The most versatile glass cleaner available - cleans glass, windows, mirrors, windshields; enamel surfaces, chrome, tile, porcelain and other hard surfaces.
- Dissolves dirt, grease, grit, and grime.
- Heavy-duty foam clings to vertical surfaces.

GLASS CLEANER #40

- Clinging foam cleaner has special anti-static formula.
- Removes smoke film, finger prints, and dirt.
- Contains no ammonia.
- Best for use on computer screens.

FLEX-O SPRAY COAT #727

- Increases print quality.
- Reduces plate cleaning time.
- Allows for faster, more efficient running of the press.
- Can be used on other surfaces where ink cleanup is a problem.

HIGH PURITY CONTACT CLEANER

- Specially formulated for electrical applications
- Prevents malfunction or contact failure by dissolving and rinsing away contaminants.
- Has no flash point; leaves no residue; dries quickly; non-conductive, non-corrosive. Flammable
- Not for use on energized or sensitive electronics

HOIL PENETRATING OIL #961

- An ideal way to loosen nuts, bolts, shafts, screws, pipes, motors, and machine parts in all environments.
- Lubricates surfaces to be disengaged.
- Used as a preventative measure, it retards corrosion of tools and tool room equipment.
- Non-conducting; never dries.

INDUSTRIAL BELT DRESSING #716

- Stops belt slippage; increases belt power up to 50%.
- Prolongs belt life by preventing dry rot and air rot.
- Performs under wet conditions.
- Will not collect dirt or dust; will not glaze.
