

LITHO-PERF ■ The original Boyd product, Litho-Perf, remains the Industry standard today for reliability and high-quality performance. It is available in 6-, 8-, 12- and 16-tooth blades with height selections from .0125 inch to .029 inch, allowing you to perform perforations on a wide variety of different paper and card stocks used for such jobs as direct response mailing cards, coupon booklets, and raffle tickets

10-Foot Rolls

- #800 6-Tooth Paper
- #801 6-Tooth Card
- #802 8-Tooth Paper
- #803 8-Tooth Card
- #804 12-Tooth Paper
- #805 12-Tooth Card

- #810 8-Tooth Paper
- #811 8-Tooth Card
- #812 12-Tooth Paper
- #813 12-Tooth Card
- #814 16-Tooth Paper
- #815 16-Tooth Card

LITHO-SNAP ■ Litho-Snap functions in the same manner as Litho-Perf, creating perforated, quick-separation snap-out or snap-apart forms. Available in 3- and 4-tooth blades, Litho-Snap 3-tooth is available only for paper stock.

10-Foot Rolls

- #820 3-Tooth Paper
- #822 4-Tooth Paper
- #823 4-Tooth Card

20-Foot Rolls

- #821 3-Tooth Paper
- #824 4-Tooth Paper
- #825 4-Tooth Card

LITHO-DIE ■ Litho-Dies are designed for die cutting on the offset press. Doorknob, door hanger and window dies are available in a wide variety of sizes. All are mounted on shim stock for ease of attachment, and are heat-treated.

Available for paper or card. Call for any custom sizes.

LITHO-SCORE/CARD ■ The new Litho-Score has no sharp, square edges that risk cutting the heavier stocks. Its wider, round scoring edge helps minimize cracking and is excellent for heavy coated and uncoated stock, cast-coated paper, and jobs where scoring over solid coverage is required.

10-Foot Rolls

- #826-3 Heavy Card

20-Foot Rolls

- #827-3 Heavy Card

LITHO-SCORE ■ The first in-the-run, on-press scoring accessory designed for the offset press, Litho-Score holds consistent register with the printed copy. The rule prepares the stock for a neater fold and is available in various heights for card and paper stocks. Litho-Score is ideal for scoring newsletters, folders, thank-you cards, announcements and table tents.

10-Foot Rolls

- #826 Paper/Light Card

20-Foot Rolls

- #827 Paper/Light Card

LITHO-SLIT ■ Litho-Slit eliminated separate runs by permitting on-press straight-cutting possibilities. The blade is effective for slitting, straight-line die cutting and insertion slots in presentation folders and can be used on either card or paper stocks. Litho-Slit can be selected with either a straight knife edge, or a serrated edge to meet specific criteria for cleanness of cut.

10-Foot Rolls

- #828 Paper
- #829 Paper
- #833 Straight-cut Card

20-Foot Rolls

- #830 Paper
- #831 Paper
- #832 Straight-cut Card
