

2 STEP ROLLER WASH

Color Wash #1: A strong detergent and solvent emulsion used to deep clean rollers during the toughest of color changes.

Color Clean #2: A mild, low odor step 2 rinse used in conjunction with Color Wash #1, to create a superb cleaning system for rollers. Because of its smooth glide, it also works well as a blanket wash.

BLANKET WASHES

Blanket Cleaner 505: A powerful, medium to fast drying wash. It's formula provides thorough, deep cleaning along with a smooth slide during wash-up.

Blanket Wash 430: Mild, yet fast drying blanket wash for any size press. Recommended as a blanket wash for the Heidelberg Quickmaster.

Blanket Wash 530: Recent government guidelines regulating emissions prompted us to develop this product. Blanket Wash 530 remains a strong cleaner while still meeting the guidelines of most local and state agencies. The low vapor pressure reduces emissions by not evaporating as quickly.

Blanket Wash ERP: A fast acting, very effective, blanket wash that contains less than 30% VOC by weight.

Blanket Wash Regular: A strong and very effective fast drying blanket wash.

Chase It Clean: An economical, fast drying blanket wash for any size press.
