

SPECIALTY PRODUCTS

Power Paste: For trouble free color changes. Power Paste penetrates roller pores to deep clean while leaving no residue. Conditions rollers by removing ink glaze and calcium deposits. No VOC's. Available in 2.1 pound tubs.

Pumice Powder: Grade FFF. Removes tough glaze from blankets & rollers. 1#

Quick Change Roller Cleaner: Non-flammable, non-toxic liquid roller cleaner. Penetrates, dissolves, and extracts oil or water soluble inks. Also removes gum glaze, paper dust, overprint varnish, etc. 17oz. squirt bottle.

Roller Lube-N-Clean: Idle Unit (open frame) compound Prevents friction build up on ink rollers on idle units. Unlike most other brands, Roller Lube-N-Clean gently cleans while protecting rollers. Available in 2.1 pound tubs.

Silicone Spray: Liquid form silicone for bindery and pressroom needs.

Super Concentrated Silicone Spray: A highly concentrated non-aerosol silicone for use in the bindery and pressroom. Works great on back cylinders!

The Terminator: Circulator tank cleaner used to flush out the main tank, lines, and water pans.

Web Fold Concentrates: Silicone emulsions for web presses. Available in 10%, 20%, 35%, and 60% concentrations.
