POSCO

Printers Oil Supply Co., Inc. (POSCO) is New England's oldest family run manufacturer of graphic arts supplies. We have been manufacturing and distributing chemicals to the graphic arts and printing industries for over 100 years.

In the year 1898, Wallace "WM" Fiske established the company in Wilmington, MA. After taking a train to Everett, MA each morning he would go to his stable and pick up his horse and buggy which he used to deliver kerosene and lubricating oils to the many print shops in Boston.

In 1930, Wallace's son Edwin L. Fiske, known as "Larry" to his many friends and customers, came to work for him. In 1959, Larry's son William "Bill" Fiske (POSCO's current President) began to work for POSCO as a truck driver. The father and son team designed and erected a new manufacturing and storage facility on Ballardvale Street in 1962. This has been the location of POSCO ever since.

In 1986, Bill's son William H. Fiske (current Vice President) came to work for the company, and again a father and son tandem was created. Together, in 1996, they completely renovated the existing facility. This included new, state of the art mixing rooms, drumming machines, etc. along with a new fleet of trucks.

Today, POSCO continues to be a family run business loaded with family traditions. We continue to modernize our facility allowing us to offer you even more products and services. For generations, POSCO has been dedicated to providing you, our valued customers, with the finest products available. We understand the value of consistency and customer service. Our team is committed to making your job easier, working hard in the development of new solutions, and improving products to satisfy your changing needs. We strive to operate with integrity, building relationships that last a lifetime. Call us today! We look forward to serving you.

Call (800)252-5290   **Fax (978)658-6142**

HOURS

Open from 7:30a.m. - 5:00p.m. E.S.T. Mon-Fri. We are closed for most major national holidays.

ORDERING

Call (800)252-5290 during regular business hours to speak to a live representative, not an automated system! Fax orders any time to (978)658-6142. E-Mail orders to customerservice@poscoinc.com All orders must meet our $25 net minimum billing.

SHIPPING

Customers located in our region will usually have their orders delivered on one of our own trucks. Smaller orders typically ship via UPS. We also utilize a wide variety of other carriers to suit your needs. We are happy to do whatever we can to ship your order according to your preferences.

RETURNS

Your satisfaction is guaranteed for all of the products that we sell. If you would like to return an item, please contact us first so that we can ensure that your return is handled correctly. Some chemicals and other items do have a limited shelf life and therefore must be inspected and approved prior to being returned and credited. We are happy to work with you and strive to offer fair service when it comes to returns & exchanges

MSDS SHEETS

Material Safety Data Sheets are available for all the products we sell. Call, fax, or e-mail us to request documents. To ensure accurate information, please specify the POSCO part number when requesting MSDS. During non-business hours you can get emergency MSDS info at (800)424-9300

TERMS

We offer open accounts of Net 30 Days to customers pending approval of a credit application. We also accept Visa, MasterCard and American Express. C.O.D. shipments can be arranged, but be aware that most carriers charge a C.O.D. fee.

We are happy to assist any customer with questions that they may have regarding the following:

- EPA Issues
- State and Federal Regulations
- Material Safety Data Sheets
- OSHA Issues
- Hazardous Waste Disposal Issues
- Container Storage and Labeling
- VOC and Product Usage Reports
- VOC Reduction

METERING ROLLER CLEANERS

EZ Solv MRC: Fast acting MRC with a mild citrus scent. *P5709*

Low VOC MRC: A strong and effective metering roller cleaner containing solvents that are less than 30% by weight V.O.C. *P5869*

Ozone Safe MRC Special: Strong, fast drying MRC with a bearable scent. Very effective cleaner. May not meet regulations in all areas. *P1024*

GLAZE REMOVERS

Blanket Brite: Quick-drying blanket reconditioner. When used intermittently, extends blanket life. *P7203*

Glaze-B-Gone: A combination of surfactants, water and solvents loosen and remove gum, fountain glaze and imbedded ink from blankets & rollers. *P5500*

Glaze Remover 502: A fast drying solvent deglazer for use on blankets. *P4011*

R&B Deglazer: A strong solvent glaze remover formulated for use on blankets as well as rollers. *P5724*

Rubber Rejuvenator: Fast dry blanket reconditioner and rejuvenator. *P7205*

UV WASH

UV 100 Wash: A strong, general purpose wash for UV and Hybrid inks. Can also be used as a combination wash to clean conventional oil based ink. *P3153*

Premium UV Wash: A very effective product that cleans UV, Hybrid and conventional inks. It has a low odor and a flash point of 155 F. *P7872*

Nova N-360UV (FOGRA): Fogra certified wash with a special blend of solvents designed to work on UV, EB and hybrid inks. Non-damaging to EPDM rollers. Compatible with hybrid composite, and buna-nitrile roller compounds. *N360UV*

1 Quart Bottles	5 Gallon Pails
12 Quart Cases	30 Gallon Drums
1 Gallon Jugs	55 Gallon Drums
6 Gallon Cases	345 Gallon Totes

ONE STEP BLANKET AND ROLLER WASHES

Alpha 499: A strong, water miscible wash with enhanced evaporation rate and a citrus scent. Recommended as a roller wash for the Heidelberg QM. *P7101*

ABC Wash: An economical, water miscible blanket and roller wash with a mild, pleasant scent. *P1600*

Auto Roller Wash: Certified and approved by KBA and Baldwin for use in their automatic wash-up units. *P5733*

Ecolo-Pro Series: Our Ecolo-Pro series of blanket washes have been developed to comply with emissions rules. Using soy based blends, these washes can meet your specific needs. A large variety of washes with different concentrations of VOC's can aid in a gradual transition from conventional washes to compliant washes without a sudden change in clean up results.

Power Pro: A powerful one step wash with water miscible capabilities and a pleasant citrus scent. Very effective in Heidelberg presses equipped with automatic blanket and roller wash systems. *P5505*

Press-Solv 140 & 140K: Meets the flashpoint requirement that is set by many manufacturers, govt. agencies, and insurance companies. Press-Solv 140 & 140K meet guidelines and clean effectively. Press-Solv 140 has a pleasant citrus scent. Press-Solv140K has a cinnamon fragrance. *P5640* (140) *P5792* (140K)

Press-Solv FA: A Fogra certified wash with a 142 F flash point and a very mild odor. It is water miscible and contains an anticorrosive agent. Approved for Heidelbergs, KBAs and Man Rolands equipped with auto wash systems. *P9398*

Press Wash 902X: A strong one step wash that is Baldwin approved. Works well in Heidelberg, Komori and other presses with automatic blanket and roller wash systems. Combats blanket piling when mixed with water. *P1042*

Press Wash PWM & PWM Special: A great cleaning, highly water miscible wash that is Baldwin approved. Mix with up to 50% water to reduce V.O.C.'s and cost. Press Wash PWM works well in presses equipped with automatic blanket and roller wash systems. *P1250* - Press Wash PWM Special is the same great cleaning wash, but adds a pleasant citrus scent *P5504*

Wash #7: A premium, all purpose, water miscible blanket and roller wash for any size shop. Can also be used in presses with automatic systems. *P1116*

2 STEP ROLLER WASH

Color Wash #1: A strong detergent and solvent emulsion used to deep clean rollers during the toughest of color changes. *P1122*

Color Clean #2: A mild, low odor step 2 rinse used in conjunction with Color Wash #1, to create a superb cleaning system for rollers. Because of its smooth glide, it also works well as a blanket wash. *P5783*

BLANKET WASHES

Blanket Cleaner 505: A powerful, medium to fast drying wash. Provides thorough, deep cleaning along with a smooth slide during wash-up. *P2011*

Blanket Wash 430: Mild, yet fast drying blanket wash for any size press. Recommended as a blanket wash for the Heidelberg Quickmaster. *P4300*

Blanket Wash 530: Recent government guidelines regulating emissions prompted us to develop this product. Blanket Wash 530 remains a strong cleaner while still meeting the guidelines of most local and state agencies. Low vapor pressure reduces emissions by not evaporating as quickly. *P7144*

Blanket Wash ERP: A fast acting, very effective, blanket wash that contains less than 30% VOC by weight. *P7678*

Blanket Wash Regular: A strong and effective fast drying blanket wash. *P1101*

Chase It Clean: An economical, fast drying blanket wash for any size press. *P1001*

CAN'T FIND A WASH LISTED HERE THAT MEETS YOUR REQUIREMENTS? GIVE US A CALL. OUR EXP-PERT TECHNICAL REPRESENTATIVES WOULD LOVE TO HELP YOU FIND A PRODUCT THAT WILL SATISFY YOUR CLEANING NEEDS AS WELL AS YOUR SAFETY AND REGULATORY REQUIREMENTS. THIS HAS BEEN OUR SPECIALTY FOR OVER 100 YEARS!
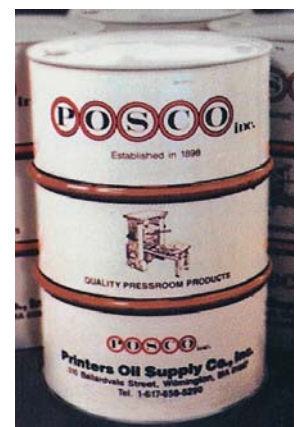

FOUNTAIN SOLUTIONS

PFC-PLUS: A universal, acid fountain solution with special buffering agents to fight off alkaline by-products during press runs. Formulated to help keep back cylinders clean. *P6081*

PFC-XBG: A hard working acid fountain solution designed to battle excessive alkaline by-products during long press runs. The additional buffering and desensitizing compounds make this an effective product. *P8515*

Poscofount SF: An acid fountain solution formulated with extra gum for better plate desensitizing. Works well on Heidelbergs. Works well on conventional and continuous dampening systems. *P1098*

PFC-7 Series: A series of acid-based fountain concentrates developed specifi cally to fight the constant problem of calcium carbonate buildup from today's paper stocks. Our PFC-7 Series fountain solutions contain additives to fight the alkaline byproducts from paper during press runs, and to stabilize conductivity. PFC-7G was developed for use on sensitive CTP plates. PFC-7GM has extra desensitizers to help control toning during long runs when using CTP plates.

PFC One Step: A universal one step sheetfed fountain solution with a desensitizing package that gives fast, clean starts. Its buffering system helps to prevent calcium glazing and plate blinding. Unique wetting agents provide excellent ink and water balance. *P8956*

Web Fount One Step: A one step web fountain solution that helps to eliminate ink feedback and build up on the metering roller. Its controlled pH helps to minimize paper piling and paper waste while providing excellent ink and water balance. *P8917*

1 Quart Bottles	5 Gallon Pails
12 Quart Cases	30 Gallon Drums
1 Gallon Jugs	55 Gallon Drums
4 Gallon Cases	275 Gallon Totes

ALCOHOL REPLACEMENTS

AR-8500: A successful alcohol replacement containing a combination of surface tension reduction compounds, non-piling additives, and wetting agents. *P5796*

AR-8700: A universal alcohol replacement utilizing enhanced wetting agents together with non-piling additives and alcohol substitute compounds. *P8531*

AR-7000: Effective alcohol replacement formulated to be less aggressive on the ink during runs. Contains non-piling additives and other wetting agents. *P7059*

Isofree: Alcohol replacement blended w/additional alcohol substitutes. It also contains non-piling additives and wetting agents. *P5634*

FOUNTAIN ADDITIVES

Foam Aid: Controls foaming in circulator tanks. *P5639*

Fungus Arrest: Prevents fungus, algae & mold throughout the circulator. *P5655*

Ink Drying Additive: Speeds ink setting and drying for fast turn around. *P5658*

Non-Piling Additive: Helps to lubricate blankets resulting in fewer blanket washings and less picking and paper piling. *P2153*

Printers Alcohol: 99% Isopropyl Alcohol. *P9051*

Pure Gum Arabic: A high quality gum to be used in plate storage or added to fountain solution for extra desensitizing. *P1258*

PLATE CLEANERS

Aqua Plate C/P: A multi-purpose plate cleaner and preserver. Effectively cleans, leaving behind a protective film to help preserve the plate. *P7950*

Roll Up Plate Cleaner: Heavy Duty plate cleaner & scratch remover. An emulsification of surfactants, abrasives, and gums cleans and protects plates. *P9238*

Hit'n Run: Plate cleaner and conditioner for metal plates. Combines the best features of solvent cleaning, and gum protection for non-image areas. *P5747*

On The Spot: Fast acting liquid plate cleaner. Very strong alkaline based cleaner to remove heavy oxidation. Helps stored plates to roll up clean. *P5502*

Scratch Remover: Effectively and efficiently cleans and removes scratches from metal plates. *P5859*

SPECIALTY PRODUCTS

Aqua Ammonia: Used as an aqueous cleaner. Available in a wide variety of concentrations to meet your specific needs.

Aqueous Coating Cleaner: A non-ammonia product used to clean coating blankets and units. It has a pleasant citrus scent. *P6096*

Back Cylinder Cleaner: A powerful blend of fast drying solvents that can clean dried ink off of back cylinders. *P5679*

Blanket Hardener: Improves sheet release on difficult stocks. *P1114*

Calcium Cleaner: An effective roller rinse specially designed to remove calcium deposits created by alkaline paper stock. *P5866*

Clean N Store: Asphaltum gum etch product for use in storing plates. *P5747*

Clean It Up: All-purpose cleaner/degreaser for pressroom cleaning. *P6061*

Chrome Roller Cleaner (CRC): Chrome roller cleaner and desensitizer. *P5706*

Chrome Roller Desensitizer (CRD): Keeps chrome rollers "water loving" to provide a uniform film of fountain solution to the plate. *P1010*

EZ Fold: Folding aid and paper softener for wet scoring on folding machines. To replace alcohol. *P5673*

Film Kleen: Fast drying film cleaner with built-in anti-static compound. Diazo film cleaner also available. *P6000*

Fix-A-Blanket: Temporarily restores low spots on blankets. Available in 4oz jars with applicator brush. *P5682*

Glass Cleaner: All purpose liquid glass cleaner. Also available in aerosol cans. *P5642*

Ink Guard Concentrate: Liquid form ink anti-skinning compound. *P1004*

Ink Guard (Aerosol): Ink anti-skinning spray. An aerosol used to spray ink and blankets during periods of shut-down. *P5629*

SPECIALTY PRODUCTS

Power Paste: For trouble free color changes. Power Paste penetrates roller pores to deep clean while leaving no residue. Conditions rollers by removing ink glaze and calcium deposits. No VOC's. Available in 2.1 pound tubs. *P7315*

Pumice Powder: Grade FFF. For tough glaze on blankets & rollers. 1# *P6086*

Quick Change Roller Cleaner: Non-flammable, non-toxic liquid roller cleaner. Penetrates, dissolves, and extracts oil or water soluble inks. Also removes gum glaze, paper dust, overprint varnish, etc. 17 oz. squirt bottle. *P7123*

Roller Lube-N-Clean: Idle Unit (open frame) compound Prevents friction build up on ink rollers on idle units. Unlike most other brands, Roller Lube-N-Clean gently cleans while protecting rollers. Available in 2.1 pound tubs. *P7323*

Silicone Spray: Liquid form silicone for bindery and pressroom needs. *P5723*

Super Concentrated Silicone Spray: Highly concentrated non-aerosol silicone for use in bindery & pressroom. Works great on back cylinders! *P5784*

The Terminator: Circulator tank cleaner used to flush out the main tank, lines, and water pans. *P5686*

Web Fold Concentrates: Silicone emulsions for web presses. Available in 10%, 20%, 35%, and 60% concentrations.

LOX Wash: Anilox Roll Cleaner.
-Removes deeply embedded ink & pigment buildup and helps restore cell volume.
-Use On: ceramic & chrome anilox rolls, photopolymer & rubber plates, ink trays, screen rollers, plate cylinders, fountains, tools & more.
1 Gallon Jugs - *ZM434-1*

PRESSROOM OILS
POSCO Oil Products as well as their Mobil equivalents, all available from POSCO

11

ANTI-STATIC SPRAY #955 S5727

- Prevents mis- or non-feeding of material on press.
- Counteracts electrostatic charges that attract dust & particles that cause spots on negatives & prints.
- Will not cause draw sheet to shrink or swell.
- Also for use on scanners, image processors.

IND. WHITE GREASE LUBRICANT S715

- High industrial-grade grease lubricant for applications where metal meets metal.
- Provides long-lasting, non-contaminated lubricating film with excellent heat resistance.
- Helps keep printing machinery running smoothly.
- Assures longer lifespan, high productivity.

JET CLEAN #805 SP805

- High-powered, moisture free cleaner.
- Use on keyboards, screens, and other delicate items.
- Attached tube allows for pin-point accuracy
- Ideal for use on lenses, slim negatives, projectors, enlargers, light tables, and optical parts.

SILICONE SPRAY #945 S7181

- Non-staining, durable coating for smooth operation.
- Stops squeaking, sticking; protects surfaces.
- Dries rapidly with no greasy or oily film.
- Lubricates screen frames, vacuum beds, printing platens.

SILICONE LUBRICANT #77 S7107

- Economical combination lubricant and release agent.
- Stops squeaks, prevents corrosion, reduces friction.
- Reduces cleanup time, friction on paper cutters, knives, drills, etc.
- Helps print shop equipment to last longer.

FDA SILICONE SPRAY #946 S7185

- Stops sticking and binding; protects equipment.
- Reduces friction; speeds cleanup of parts and equipment; increases production, reduces downtime.
- FDA approval; can be used in food processing.
- Remains dry; non-staining.

GLASS CLEANER #50 S5795

- The most versatile glass cleaner available - cleans glass, windows, mirrors, windshields; enamel surfaces, chrome, tile, porcelain and other hard surfaces.
- Dissolves dirt, grease, grit, and grime.
- Heavy-duty foam clings to vertical surfaces.

GLASS CLEANER #40 S5758

- Clinging foam cleaner has special anti-static formula.
- Removes smoke film, finger prints, and dirt.
- Contains no ammonia.
- Best for use on computer screens.

FLEX-O SPRAY COAT #727 SP727

- Increases print quality.
- Reduces plate cleaning time.
- Allows for faster, more efficient running of the press.
- Can be used on other surfaces where ink cleanup is a problem.

PRECISION CONTACT CLEANER S789-9

- Effectively removes soil & other contaminants from electrical components
- Quick drying.
- Leaves no residue.
- Safe for use on most plastics.

HOIL PENETRATING OIL #961 S5967

- An ideal way to loosen nuts, bolts, shafts, screws, pipes, motors, and machine parts in all environments.
- Lubricates surfaces to be disengaged.
- Used as a preventative measure, it retards corrosion of tools and tool room equipment.
- Non-conducting; never dries.

MASTER INK ANTI DRY AEROSOL RP7870-9

- Prevents ink from skinning in the fountain.
- Also prevents skinning on blankets & rollers.
- Can be used on open ink cans to prevent waste.
- Leaves no greasy residue.-

INK GUARD P5629

- For longer-term screen print stoppages such as over-night or weekends.
- Eliminates washups; works with any type of ink.
- Prevents skinning; delays drying of inks in screens.

RD90 SPRAY LUBRICANT S7182

- An long-lasting industrial oil-based lubricant for all types of machinery and equipment.
- Stops squeaking, prevents rust, displaces moisture.
- Use on parts, shafts, and rotary systems of all types of graphic arts equipment.

COMPUTER SCREEN TERMINAL CLEANER

- Fast drying and non-streaking cleaner for use on all screens and monitors.
- Dissipates electrostatic charge which attracts dust and other particular matter.
- Non-abrasive, anti-stat and anti-fogging additives will not scratch terminal surfaces.

TFE-DRY LUBR. RELEASE AGENT SP101

- Easy-to-use colorless dry lubricant release agent.
- Non-staining. Contains neither silicone nor oil.
- Remains clean and dry during use.
- Perfect as a general liquid masking to release rubber and plastic check printing plates.

C-60 SOLVENT CLNR & DE-GREASER S7183

- Removes oil and grease stains, ink, and fresh paints.
- Non-flammable; safe to use while running machines without disrupting production.
- Effective for cleaning oily and greasy parts while servicing and repairing presses and other equipment.

PLASTIC SPRAY CLEAR FIXATIVE SP201

- Provides a clear acrylic protective coating to artwork, proofs, photos, etc.
- Highly-flexible; water-resistant; quick-drying.
- Will not harm artwork of any kind.
- Offers protection against constant handling.

SPRAY ADHESIVE #66 S5834

- Non-wrinkling, water-resistant and repositionable
- Use for both temporary and permanent bonds.
- Bonds many materials easily.
- Ideal for quick layouts, paste-ups, and labeling.

RUBBER CLEANER & REJUVENATOR S7337

- Enhances production; prolongs parts life.
- Restores ink-laden, hardened rollers and blankets.
- Removes difficult soil on copier covers and flaps.
- Removes glazing resulting from friction, ink, etc.
- Can be used while presses are running.

FAST TACK ADHESIVE #87 S8381

- Non-staining formula
- Ideal for lightweight bonding applications
- Fast tack. High solids
- No chlorinated solvents.

MATTE FIXATIVE SP204

- Provides clear, permanent, waterproof protection for artwork, opaque negatives, etc.
- Quick-drying matte finish may be worked over with any art medium.
- Will not alter art technique or effect when used as directed.

LITHCO CHAIN CLEANER & LUBE

- LIT8274
- 11.24oz Aerosol Can
- With Teflon
- Chain Cleaner & Lubricant in 1 step

FILM CLEANER #205 S7338

- An easy-to-use, quick-drying film cleaner.
- Easily removes tape marks, adhesives, inks, and dirt
- Safely cleans film positives and negatives.
- Helps reproductions turn out crisp, clean, sharp.
- Not recommended for diazo, scanner drums, plastics

Made to Manufacturers Specifications. Guaranteed Quality and Fit.

SIEBERT ICS PRESOAKED CLEANING CLOTH ROLLS

-No VOC Chemicals
-Works with conventional, UV, and Hybrid inks
-Cleans Better
-Cleaning fluid is biodegradable

Available for a wide range of presses. Popular varieties are stocked in our warehouse for quick order fulfillment.

SIEBERT ICS SUPER BLADDER

Designed to replace OEM bladder materials. Dimensionally the same as OEM bladders but weighs almost twice as much. Specifically formulated rubber compound has superior chemical, abrasion, heat and impact resistance. Compatible with conventional, UV, and hybrid inks. Better product, better value. Send in your bladder and we will have it installed for you and quickly returned.

Indigo Sapphire Solution

Used to treat paper stocks for use on HP Indigo presses.

Available in: 1-Gallon Jug, 5-Gallon Pail, 30-Gallon Drum, 55-Gallon Drum, more.

· 3.2% Sapphire Solution
  Ready to run concentration

· 10% Sapphire Solution
  3X strength. Water it down yourself in order to save on shipping costs or run your own desired final concentration level

· Sapphire 5/15 Blend
  Formulated to work with some semi synthetic & plastic stocks.

Sapphire Indicator Solution

30ml eye-dropper bottle. Tests coverage and uniformity of sapphire solution on treated paper.

WR Silicone Release Agent

Designed for use on all metal surfaces. Great for guillotine cutting tables and knives. 10X the silicone concentration of most aerosol sprays. Cleans & Protects

Available in pints, quarts, gallons

W8811

Process Color Wax P7140

Aids in ink transfer. Dots reproduce without causing "dot gain" and "hickies" are eliminated. Reduces tack without affecting ink body. Achieve sharper print quality. Improves metallic inks.
1.5# Cans (or Case/15 cans)
6# Cans (or Case/6 cans)

Offset Spray Powders

Coated or uncoated spray powders available in various micron sizes

OxyDry Brand:
Available in: 55 lb boxes

Varn Brand:
Available in: 55 lb boxes
            11 lb boxes

OMC Brand:
Available in: 50 lb boxes
            10 lb boxes

Dosatron Metering Units

Non-Electric fountain solution metering units automatically mix your Fountain Solution and/or Alcohol Replacement with your incoming water source. No need to measure solutions, just set the Dosatron to your desired mix percentage and turn on your water.

Full product line available. Popular DI150 unit shown here. Installation service also available

R/O Water System
PC8675-MINI PC8674-300

Reverse Osmosis water system will provide your pressroom with better water. This purified water will increase your print quality as well as save you time and money.

Available in a size to meet the water quantity demand of your operation. Tank sizes and configurations can be adjusted to suit your needs. Installation is also available for these units.

We also offer filters and other parts for these systems as well as many other popular water

PRESSROOM CONSUMABLES

-Myron L Brand
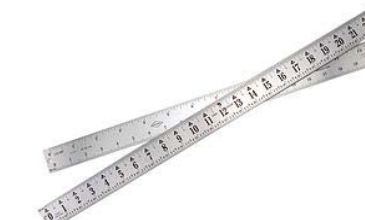

Gaebel Rulers

Stainless steel construction.
One or Two sided
Inches, Points, Picas, Agates, Metric

#	Size	Description
#604	24"	Front has inches and gauge point slit. Back has picas & lines .
#605	12"	One-sided ruler. 1-1/4" width and .032" thickness
#605	18"	Top has Inches in 16ths and bottom is Picas **L7829**
#605	24"	Flush start on these in stock sizes **L7830**
#611	6"	Pica and Inches on front. Picas and Metric on back
#612	12"	Two-Sided
#612	18"	Front has 6 & 12 Point and Inches
#612	24"	Back has 6 & 12 Point and Agate
#612F	12"	Two-Sided **LIT612F12**
#612F	18"	Front has Inches and Agates
#612F	24"	Back has 6 & 12 Point (Picas) & Points
#612H	12"	Two-Sided **LIT-L612H12**
#612H	18"	Front has 6 & 12 Point on the left and Inches on the right
#612H	24"	Back has Metric and Points **LIT-L612H24**
#624	12"	Two-Sided. 1-1/4" width and .032" Thickness
#624	18"	Front = 32nds for 1st in. only and then 16ths the length
#624	24"	Bottom front = Picas. Back = like front & agates on bottom
#624M	12"	Two-Sided. Front is exactly the same as #624 series
#624M	18"	Back has two Metric scales running in opposite directions
#624M	24"	Top is millimeters. Bottom is half-millimeter **L7828**
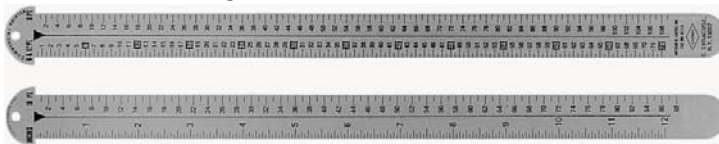

Thermometer

3" Head x 6" Probe

Hand Held Packing Gauge

Accurately measures the height of the surfaces of the two cylinders (in thousandths of an inch) and the total of these heights indicates if the degree of contact is proper. Dial indicator is calibrated in thousandths of an inch and is actuated by the vertical movement of the pressure lever

Magnetic Packing Gauge

Best instrument available to measure actual thickness of packing under the blanket and plate on press. Although the packing & blanket thickness may have been measured prior to installation, after a few thousand impressions, packing can crush, changing plate pressure. **LEQP-TPP**

Digital Packing Gauge

Digital Packing & Blanket Gauge For use only on blanket or aluminum and polyester plates applied to a ferrous substrate and use the magnetic properties of the substrate material to determine the material thickness. Easy to use. **LITEQP-DPGM1**

Micrometer RP7640

.0001" Graduations on Vernier
Read digital counter to .001"
Ratchet Stop & Lock Nut
Fitted Case w/adjusting wrench
Sizes 1-2" and larger available
Baked enamel finish
Carbide faces on anvil & spindle

#3 Zahn Cup

Used to measure the viscosity of coatings. **CA8064**

MEASURING EQUIPMENT

Linen Testers, Loupes, Alcohol Testers, Conductivity Meters, Rulers, Thermometers, Packing Gauges, Micrometers, Zahn Cup

Controllers
Compact & affordable liquid level control.

Mini Level Controller System

Mini Level Controller HI 7873
Idea for liquid level control over distances of up to 1000'. Features high & low level control and overflow alarm. Requires HI 7874, HI 7164 & HI 731324.

Bar Holder w/Amplified Circuitry HI 7873

Undecal Connector HI 7873

Threaded Measuring Bars HI 731324

Advanced Testers
HANNA advanced testers feature waterproof, floating casings & Automatic Temperature Compensation (ATC).

Combination

Combo Waterproof pH/EC/TDS Temperature Tester
HI 98129
Measures 0.00 to 14.00 pH, 0 to 3999 µS/cm (EC) & 0 to 2000 ppm (TDS). Features replaceable pH electrode cartridge & dual level LCD.

Combo Waterproof pH/EC/TDS Temperature Tester
HI 98130
Measures 0.00 to 14.00 pH, 0.00 to 20.00 mS/cm (EC) & 0.00 to 10.00 ppt (TDS). Features replaceable pH electrode cartridge & dual level LCD.

Conductivity

DiST® 5 Waterproof EC/TDS Temperature Tester HI 98311
Features replaceable graphite EC Probe cartridge & dual level LCD. Measures 0 to 3999 µS/cm (EC) & 0 to 2000 ppm (TDS).

Temperature Testers
Most HANNA thermometers feature HANNA's exclusive **CAL-Check** Auto Calibration Test.
°F & Factory calibration certificates are available

Checktemp® 1 w/Remote Stainless Steel Probe HI 98509
Features a 6.29 x 0.12" stainless steel probe & measures -50.0 to 150.0°C.

Calibration Solutions
HANNA single use calibration sachets provide the assurance of an accurate calibration everytime.

EC
12.88 mS/cm solution HI 70030P*
14.13 µS/cm solution HI 70031P*

pH
pH 4 & 7 solution kit HI 77400P**

EC & pH
14.13 µS/cm & pH 7 solution kit HI 77100P**

TDS & pH
1500 ppm & pH 7 solution HI 77200P**

*(25) 20 mL sachets
**(20) 20 mL sachets, 10 per value

Portable Meters
HANNA portable meters offer accurate results in the field.

pH/EC/TDS
3-in-1 Meter HI 9810
Measure 3 of the most crucial parameters in printing with a single probe! Measures 0.00 to 14.00 pH, 0 to 6000 µS/cm (EC) & 0 to 3000 ppm (TDS).

Hygrometer
Compact, Portable Thermo-hygrometer HI 93640
Features a built-in, thin-film capacitor sensor and dual temperature range. Measures 5.0 to 95.0% RH, 0.0 to 60.0°C & 32 to 140°F.

Indicators
Professional instruments to monitor pH & conductivity of fountain solutions.
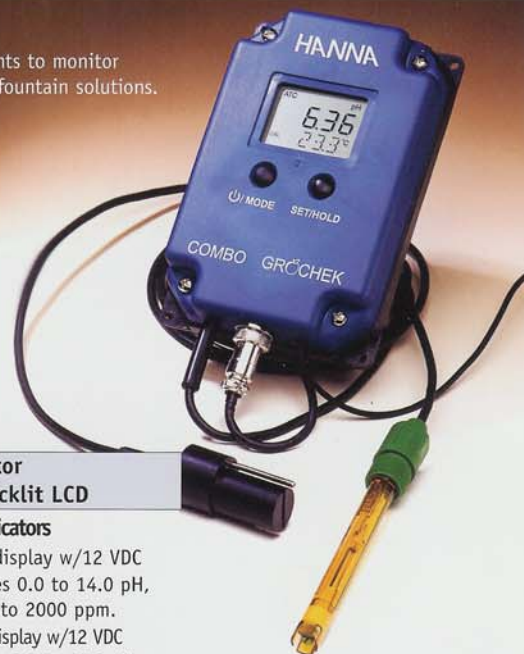

Waterproof Indicator with Dual-level Backlit LCD

pH/EC/TDS/Temp. Indicators
HI 981404N Extra large display w/12 VDC power supply. Measures 0.0 to 14.0 pH, 0 to 3999 µS/cm & 0 to 2000 ppm.
HI 981405N Extra large display w/12 VDC power supply. Measures 0.0 to 14.0 pH, 0.00 to 20.00 mS/cm & 0.00 to 10.00 ppt.

PHOTO DIRECT PRINTING PLATE CHEMICALS

SilverChem products for all Mitsu. Silvermaster, Itek Mega-Lith, and AB Dick (Presstek) poly and paper printing plates:

Solutek SilverChem Activator Concentrate - G547-24
4 x 1 Gallon bottles/unit - Makes 8 working gallons

Solutek SilverChem Stabilizer Concentrate - G548-24
4 x 1 Gallon bottles/unit - Makes 16 working gallons

Solutek SilverChem Etch - G549-76
6 x 1 Quart bottles/unit - Ready-to-use

SOLUTEK RAPID ACCESS FILM CHEMICALS

Solutek 2200 Developer/Replenisher Concentrate
A single solution, concentrated developer, for use with all rapid access films, including 4th and 5th generation, plus Phototypesetting papers and films in replenishment type processors. Hardest dots. Fast development times. Similar to Kodak 2000 developer.
G539-04 4 x 1.25 Gal bottles　　**G539-40 -** 2 x 2.25 Gal jugs

Solutek 2201 Developer Ready-To-Use
Single solution, ready-to-use, Premium Rapid Access Developer for use with rapid access films, Reprographic films, and RC papers in batch processors such as: LogE Line 17 and 25, Kodak Readymatic, and Compugraphic MCS. Can be used for tray processing and POSC-1 type camera processors. **G536-40 -** 2 x 2.25 Gal jugs

Solutek 3300 Fixer Concentrate
A high speed, non-corrosive Fixer. Can be used for either Automatic or Manual processing of all Graphic Arts and Photographic films or papers. Companion product to all Graphic Developers.
G107-24 - 4 x 1 Gal jugs　　**G107-40 -** 2 x 2.25 Gal jugs

Solutek Uni-Fix Premium Fixer Ready-To-Use
A universal, ready-to-use, non-hardening Fixer for all Rapid Access, Phototypesetting, and RC materials. Companion product to Solutek 2201 developer　　**G519-40 -** 2 x 2.25 Gallon jugs/unit

ANALOG PLATE CHEMICALS

Solutek 2-in-1 Subtractive Developer: Ready-to-use Developer for most analog plates. **G555-24** 4 x 1 Gal bottles
G555-40 - 2 x 2.25 Gal jugs

Solutek Subtractive Developer:
To be used with a finisher.
G556-24 4 x 1 Gallon bottles
G556-40 - 2 x 2.25 Gallon jugs

Soluplate Finisher:
For use with subtractive developer.
G557-25 1 x 2.5 Gallon jugs
G557-40 - 2 x 2.25 Gallon jugs

Soluplate UPC:
Universal Processor Cleaner.
G720-77 12 x 8oz Bottles/Case

SLM-OH III Etch

Mitsubishi Silver Master Plate Etch
G6018610004-6
6 Quart Bottles per Case

FULL LINE OF GRAPHLINE PRODUCTS ARE AVAILABLE FROM POSCO. LET US KNOW WHAT YOU NEED AND WE WILL BE HAPPY TO PROVIDE YOU WITH A QUOTE.

Jade Plates

1 or 2 Sided Analog Metal Plates

Agfa compatible analog plates. Wide variety in stock. When ordering, please specify:

-Size: Around and across
-Gauge
-Pinbar or Straight Cut

Laser Plates

Numerous brands of laser plates are available from POSCO. Full line of the following brands available for various machines.

-Baseline/Graphline
-Lehman
-Hurst
-DotWorks

Mitsubishi Alpha Violet L

Single sided anodized aluminum plates. Compatible with Agfa LAP-V plates. Available in .006", .008", and .012" gauges

Silver Violet Plate Chemistry

Ready to use for Agfa direct-to-plate processors.

SDP Alpha Chemistry

Ready to use for Mitsubishi direct-to-plate processors

Optima Negative Thermal Plates

No pre-bake required. LPI 2%-98% IR laser at 830nm. .006", .008", .012" Gauges

Optima Thermal Plate Chemistry

Optima Violet Photopolymer CTP Plates

CTP Plates. Negative working laser plates for use on Violet CTP devices.

Optima Violet Photopolymer Plate Chemistry

IBS
INNOVATIVE BLANKET SOLUTIONS
310 Ballardvale St., Wilmington, MA 01887

POSCO's In-House Blanket Converter

IBS-762 — Excellent 4-ply blanket for Sheetfed Offset as well as Web. Minimal dot gain. Premium quality blanket is ready and waiting to take the place of your current blankets.

IBS-811 — Versatile 4-ply blanket that is compatible with conventional as well as hybrid inks. Durable surface and strong carcass just like all of the IBS series blankets.

IBS-760 — Durable 3-ply blanket with excellent resistance to edge cutting. Great when changing sheet sizes.

FUJI — Fujikora 5-Ply: Olive green compressible blanket with a smooth, buffed surface.

IBS-704 — Specifically designed for UV. Surface is resistant to swelling caused by UV inks. 3 & 4Ply
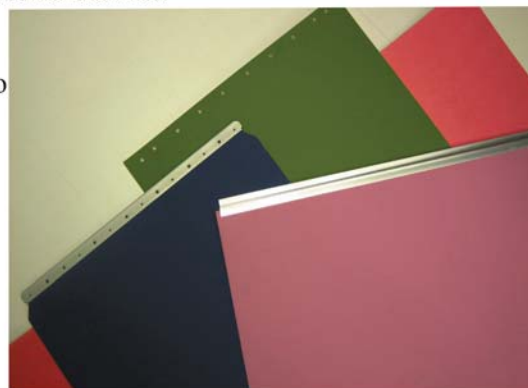

IBS EXTREME — Premium 4-ply blanket for high quality sheetfed offset printing. Excellent dot reproduction and rich solids.

SPOT COATING PLATE — High quality strippable varnishing plate. Super strong mylar carcass. Easy stripping coupled with superior resistance to penetration by coatings and cleaners.

Stript-Ease — 3-ply and 4-ply coating blanket. Large strippable compressible layer. Cotton carcus. Buffed surface offers excellent transfer of coating. Easy to cut & strip knockouts.

NEW Perfector Cylinder Jackets for Mitsubishi 3000D Press

Custom Jackets Made Upon Request.

Care & Maintenance:

For longest product life, clean PrintGuard*plus* Jackets with uniform light pressure using a cotton shop cloth saturated with water miscible mild press wash—preferably diluted 50/50 with water. Never let ink dry on the surface or use sharp tools or high abrasion to remove dried ink, let soak for a few minutes and wipe surface again with wet shop cloth.

PrintGuard, Orange Hide, and PrintGuardPlus are registered trademarks of PrintGuard, Inc. in the U.S. and/or other countries.

PrintGuard Guarantee

The manufacturer and technical sales team stand behind PrintGuard's Performance! Buy two PrintGuardPlus jackets to confirm for yourself that PrintGuard will actually save you money by decreasing your press downtime and improving your print quality. Follow care and maintenance instructions below and if you are not satisfied with Printguard's performance, simply return these jackets within one month and we will refund the full product price.

PrintGuard Jackets
Perfect Fit for Your Heidelberg Press

Print**G**uard®
*Glass Bead
AntiMarking Products*

PrintGuard Glass Bead Film

PrintGuard Features:

- **Durable Construction:** Glass beads, adhesive and film are extremely tough and resistant to oils and mild press washes.

- **Dense Glass Bead Matrix:** Supports the printed sheet evenly and prevents ink buildup in the area between the glass beads. Glass bead surfaces are easy to clean and naturally repel ink buildup.

- **Monolayer:** A perfect single layer of glass beads guarantees equal support and release across the entire wet printed sheet width, thereby eliminating marking.

- **Glass Bead Diameter:** Provides a uniform bead height at every point of contact with the wet printed sheet. Choose from a variety of glass bead sizes (Small, Large) and smoothness levels to maximize your printing yield.

PrintGuard = Glass Bead Matrix Bonded to Film

PrintGuard Anti-Marking Sheets Are Available For All Presses:

| Heidelberg | Komori | Mitsubishi | Shinohara |
| Akiyama | Sakurai | Ryobi | Hamada |

Print Guard®

Orange Hide®
Glass Bead Film
AntiMarking Products

Orange Hide

We have advanced our proven PrintGuard technology by adding a proprietary Orange Hide ink repellent coating. Orange Hide works better than any other glass beaded product in the market! Pressman who have tried both the Regular and the Orange Hide product tell us Orange Hide works three times better! Orange Hide improves your print quality, your customer satisfaction, your press up-time, your quality of life, and of course the company's bottom line!

Orange Hide = PrintGuard + Orange Ink Repellent Coating

Orange Hide features:

- **Orange Hide coating:** A cross linked orange ink repellent coating reduces the surface energy of the PrintGuard glass beaded surface. This means that ink does not want to stick to the Orange Hide surface. Less ink attraction = less marking = more profit.

POPULAR COATINGS ARE IN STOCK AND READY TO SHIP. NON-STOCK ITEMS SHIP QUICKLY FROM NJ OR NC.
AVAILABLE IN VARIOUS SIZES INCLUDING 55 GALLON DRUMS, 30 GALLON DRUMS, 5 GALLON PAILS, AND MORE

Coatings & Adhesives is the market leader in overprint coatings for the graphic arts, and is the largest manufacturer of water based overprint coatings in North America. Coatings are manufactured in Leland, NC and used by commercial and packaging printers throughout this continent, South America, and Asia.

Water Coatings for Sheet Fed Offset Presses

- **1423D** excellent general purpose work and turn with good gloss, high rub resistance, and good post-finishing properties.
- **1385D** faster drying work & turn with better receptivity to glue, hot stamping, and UV coating
- **1428D** highly user-friendly satin coating
- **1443C** very dull, smooth laying satin coating
- **1478D** low curl gloss coating for text weight gloss paper
- **1394D** low curl satin coating for text weight dull stock
- **1407D** low curl coating for offset paper and some matte stocks

UV Coatings

- **5113C** excellent, high gloss UV for inline and offline application
- **5111D** satin UV coating
- **5144C** matte UV coating

Glues

- **4002B** low viscosity glue for extrusion gluers
- **4000A** glue for pot/wheel application and mounter/laminators

Both glues are very high performance, high adhesion formulas with competitive pricing as well

These proven overprints are applied directly through offset inking systems and allow any offset printer to produce jobs that previously required a separate unit.

LITHO-PERF ■ The original Boyd product, Litho-Perf, remains the Industry stand-ard today for reliability and high-quality per-formance. It is available in 6-, 8-, 12- and 16-tooth blades with height selections from .0125 inch to .029 inch, allowing you to perform perfo-rations on a wide variety of different paper and card stocks used for such jobs as direct response mailing cards, coupon booklets, and raffle tickets

10-Foot Rolls	20-Foot Rolls
#L800 6-Tooth Paper	**#L808** 6-Tooth Paper
#L801 6-Tooth Card	**#L809** 6-Tooth Card
#L802 8-Tooth Paper	**#L810** 8-Tooth Paper
#L803 8-Tooth Card	**#L811** 8-Tooth Card
#L804 12-Tooth Paper	**#L812** 12-Tooth Paper
#L805 12-Tooth Card	**#L813** 12-Tooth Card
#L806 16-Tooth Paper	**#L814** 16-Tooth Paper
#L807 16-Tooth Card	**#L815** 16-Tooth Card

LITHO-SNAP ■ Litho-Snap functions in the same manner as Litho-Perf, creating perforated, quick-separation snap-out or snap-apart forms. Available in 3- and 4-tooth blades, Litho-Snap 3-tooth is available only for paper stock.

10-Foot Rolls	20-Foot Rolls
#L820 3-Tooth Paper	**#L821** 3-Tooth Paper
#L822 4-Tooth Paper	**#L824** 4-Tooth Paper
#L823 4-Tooth Card	**#L825** 4-Tooth Card

LITHO-DIE ■ Litho-Dies are de-signed for die cutting on the offset press. Doorknob, door hanger and window dies are available in a wide variety of sizes. All are mounted on shim stock for ease of attachment, and are heat-treated.

Available for paper or card. Call for any custom sizes.
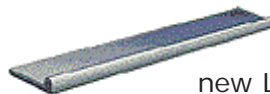

LITHO-SCORE/CARD ■ The new Litho-Score has no sharp, square edges that risk cutting the heavier stocks. Its wider, round scoring edge helps minimize crack-ing and is excellent for heavy coated and uncoated stock, cast-coated paper, and jobs where scoring over solid coverage is required.

10-Foot Rolls	20-Foot Rolls
#L826-3 Heavy Card	**#L827-3** Heavy Card

LITHO-SCORE ■ The first in-the-run, on-press scoring acces-sory designed for the offset press, Litho-Score holds consistent register with the printed copy. The rule prepares the stock for a neater fold and is available in various heights for card and pa-per stocks. Litho-Score is ideal for scoring newslet-ters, folders, thank-you cards, announcements and table tents.

10-Foot Rolls	20-Foot Rolls
#L826 Paper/Light Card	**#L827** Paper/Light Card

LITHO-SLIT ■ Litho-Slit eliminated separate runs by permitting on-press straight-cutting possibilities. The blade is effective for slit-ting, straight-line die cutting and insertion slots in presentation folders and can be used on either card or paper stocks. Litho-Slit can be selected with ei-ther a straight knife edge, or a serrated edge to meet specific criteria for cleanness of cut.

10-Foot Rolls	20-Foot Rolls
#L828 Paper	**#L830** Paper
#L829 Paper	**#8L31** Paper
#L833 Straight-cut Card	**#L832** Straight-cut Card

LITHO-SCORE/CS ■
A new development for the offset press, Litho-Score/CS has no sharp, square edges that risk cutting heavy stock. Its wider, rounder scoring edge helps minimize cracking and is excellent for heavy-coated and uncoated stocks, cast-coated paper, and jobs where scoring through solid coverage is required.

10-Foot Rolls	20-Foot Rolls
#L626 For Paper	**#L627** For Paper
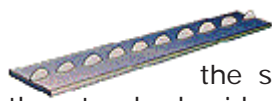

LITHO-PERF/CS ■
Offering the same perforating performance as the standard, side-aligned Litho-Perf, Litho-Perf/CS has center-mounted teeth for increased pressure and longer runs. This is currently the only center-mounted rule available that is heat-treated using Boyd's time-tested methods for extended life.

10-Foot Rolls	20-Foot Rolls
#L600 6-Tooth Paper	**#L608** 6-Tooth Paper
#L601 6-Tooth Card	**#L609** 6-Tooth Card

#L604 12-Tooth Paper	**#L612** 12-Tooth Paper
#L605 12-Tooth Card	**#L613** 12-Tooth Card

MICRO-PERF/ SpecialHigh ■
With the new H.S. Boyd Micro-Perf special high you now can micro perforate card stock, offering a perforation line that remains clean. The blades are available in a blade height of .029 inch, designed for use on heavier paper or card stocks up to 12pt.

Special Low	Special High

	#L8020 20-ft. 16-Tooth (.021)

MICRO-PERF/SS ■
With 30-, 40- and 50-tooth blades, Micro Perf is ideal for perforating continuous feed forms, offering a perforation line that remains clean. The blades are available in a blade height of .022 inch, designed for use on paper or lightweight card stocks. Use Micro-Perf for jobs that will pass through a laser printer after being perforated.

#628 For Paper	**#630** For Paper
#629 For Card Stock	**#631** For Card Stock

LITHO-PUNCH ■
Litho-Punch creates a punched circular cut that remains lightly attached for removal by the end user. It is available in 1/8", 3/16", 1/4", 3/8", 1/2", 1", 1 1/4", and 1 1/2" diameters. A serrated or straight-cut edge may be used -- available for both paper and card stocks.

When ordering, specify punch hole size and paper or card.

H.S. Boyd Perfing Products

SUCKERS, PRESS PARTS AND ACCESSORIES

1 **KLUGE,** paper suckers. Red or gum rubber. F8868-12

1P **PLASTIC SUCKER** Longer life.

1a **KLUGE,** Narrow Margin Sucker, very handy in tight places.

2 **KLUGE,** card suckers. Red or gum rubber. Gum-F8869-12 Red F8610-12

3 **KLUGE,** carton suckers. Red F8611-12 or gum rubber.

4 **UNIVERSAL TIPS,** light duty C&P, Giant, Web, Chief and Kluge.

5 **UNIVERSAL TIPS,** heavy duty C&P, Giant, Web, Chief and Kluge.

6a **MACEY COLLATOR,** HARRIS pickup sucker for cardboard.

7 **HARRIS,** old style, Giant, Web, Chief, Harris, for cardboard. Gum rubber, thin, regular or heavy, or black poly.

8 **HARRIS,** old style, Giant, Web, Chief, Harris, for paper. F9034-12

9 **MILLER,** Simplex, Major, Southworth envelope press suction feed. Fits 1/4" tube. For paper.

10 **MILLER,** Simplex, Major, for cardboard. Gum rubber or black. F53521-12

11 **HARRIS 90 ELB,** fits most presses. Mann, Macey Collator & Stitcher, **6E7** - paper. F7938-12 **6E8** - cardboard. F53519-12 HTB Miehle feeders.

12 **HARRIS 1361 LTN** fits most presses, for paper. Gum rubber or silicone.

13 **a - MIEHLE CS3122 FEEDER,** Superchief light forwarder, Miller, Didde Glaser Collator, for paper. F7025-12
b - MIEHLE CS3124 FEEDER, Superchief heavy forwarder, Dexter, Giant, for cardbrd. Both fit Ebco presses. F8609-12

14 **MIEHLE CS427 FEEDER,** Farrington Collator, Giant, Web, Chief, For paper. F9035-12

15 **MIEHLE CS1026 FEEDER,** Giant, Web, Chief, for cardboard.

15a **MACEY COLLATOR,** Harris pickup sucker, For paper. F8090-12

16 **C&P RICE, Kluge "D"** Delivery, for paper and light cardboard. F8612-12

17 **KLUGE,** for narrow margin work. Use on feeder or delivery.

18 **KLUGE,** same as #17. Rubber disc #19K added For cardboard. F9240

19 **FLAT RUBBER SUCTION DISCS,** Over 70 different sizes available up to 2". Submit sample. More info listed at bottom of page.

20 **WASHERS** Miehle vertical
a - feedboard
b - gripper bar
c - gripper head (thin)

21 **SANDPAPER DISCS**
a - ready glued
b - without glue
Kluge, C&P, others. 3/4" or extra large 1-1/8".

22 **HEIDELBERG SUCKER, KLUGE,** new style, 7/8" across. Delivery gripper will not tear this. F7565-12

23 **RUBBER SUCTION TIP** 5/8" across - fits inserting and gathering machines. Sheridan, McCain, Phillipsburg. Various compounds available. Submit sample. F7518

23a **DEXTER RGA 717,** Raised inside pattern for Light stock. Submit sample.

26 **KLUGE METAL CAP** Holds standard rubber Sucker. For feeder And delivery. F7465

27 **BRASS SUCKER**
a - for paper.
b - for cardboard. Chief & Webendorfer Offset Presses.

28 **MIEHLE FEEDER CAP,** plastic, shuts off openings on feeder bar.

29 **a - MIEHLE VERTICAL** Fluffer Wires for Paper.
b - MIEHLE VERTICAL Fluffer Wires for cardboard.
c - THUMB SCREW for Fluffer Wires, includes washer.

30 **a - MIEHLE VERTICAL** Air Release Valve. Used on feeder arm instead of #28 cap. Release a little air by turning screw. Excellent for cardboard and tissue.
b - MIEHLE VERTICAL Cylinder Gripper, Complete only. Fits all verticals.

32 **JOB PRESS** Gripper Fingers. Fits Kluges, C&P, etc. Short, long, extra long. Standard & narrow widths.

33 **a - KLUGE SHEET TONGUES.** Sizes 1 to 6.
b - SHEET TONGUE SCREWS. Fits all Kluges, includes washer.

34 **MIEHLE VERTICAL TRANSFER TABLE LEVER KEY.** Keeps feedboard in place. Fits all models.

35 **MIEHLE VERTICAL BACKSTOPS** Fits all plain boards. Simple instructions.

36 **KLUGE REGISTER ROD CAM,** left or right.

38a **ENDLESS BELTS,** Vertical & Kluge. Leather for drive & motor.

CONVEYOR TABLE BELTS for **MULTILITH - 1250 AND 1250W** Fabric **CHIEF 15-17** - Fabric

39 **TELESCOPING SUCKER** for ATF Chiefs except Super Chief & Chief 15. Used with flat disc 19K. PartE

40 **FEED SUCKER BLOCK** For Chief 20, 22, 29 Presses. Holds Part E. PARTF

41 **VERTICAL PIN WRENCHES**
a - Straight type, small and large.
b - "S" type, small.
d - Komori Pin Wrench.

43 **KLUGE REGISTER ROD HOLDER.**

44 **KLUGE WRENCH SET,** Includes popular nuts & bolts.
a - complete 7 piece set.
b - Wrench.
c - Gripper nut.
d - Side guide nut.
e - Delivery pickup bolt.
f - Delivery track bolt.

45 **KLUGE MISCELLANEOUS PARTS.** Fits all models.
a - Side guide tongue.
b - Magazine separator spring
c - Center comber spring.
d - Side guide eyebolt holds side guide to platen.

46 **BOOK TRIMMING GUIDES.** Challenge style. Bolt portion fits on back finger gauge of cutter. Keeps and size booklets flat for trimming.

47 **BOOK TRIMMING GUIDES.** Economy style. Fits on back gauge of cutter.

48 **KLUGE**
a - Delivery pickup bolt.
b - Delivery pickup clamp top.
c - Delivery pickup clamp base. Specify left or right.
d - Delivery pickup suction tube.

50 **GUM RUBBER HOSE.** 1/4" or 3/8" ID.

51 **KLUGE**
a - Kluge Side Guide, complete. Left or right.
b - Kluge Side Guide Block
c - Bottom Feed Gauge.
d - Feed Gauge Tongues only.
e - Kluge Side Guide, complete with offset stem. Left or right.

52 **KLUGE**
a - Kluge Bottom Gauge Band. Specify length - 19-1/2", 23-1/4" or 25-1/2".
b - Kluge Bottom Gauge Band Clamp. Quick release.
c - Kluge Bottom Gauge Band Clamp with screw to hold band. Specify left or right.

53 **BLOWER FLEXIBLE STEEL TUBING.** Fits all Kluges. 5' length.

#19 Flat Rubber Sucker Discs are available in 5 different thicknesses .015"(1/2mm), .032"(1/32" or 0.8mm), .040"(1mm), .062"(1/16" or 1.6mm), .080"(2mm) and Poly(1/32") When ordering, specify Outside Diameter, Inside Diameter, and Thickness (ex. 1-1/2"x1/2"x1/32")

SM74 sheet slowdown belt. Punched, endless with self tracking guide. Two models available: grey and yellow

SM102 sheet slowdown belt - perforated in staggered pattern and assembled for easy installation.

Precision cut, punched and skived

UNIQUE PACKAGING

HEIDELBERG MO
Code: FBMO

HEIDELBERG SM74
Code: FB74

For easy handling and safe storage with clear, precise labeling detailing product code, press model, length and width.

PERFECT SKIVING
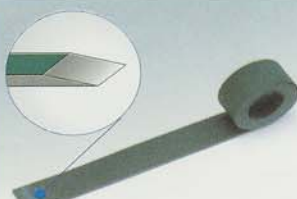

HEIDELBERG SM102
Code: FB102

For accurate and easy assembly!

PERFORATED BELTS

HEIDELBERG SM52
Code: FBSM52

Perforations enable the belts to have air suction ensuring the material is conveyed as intended and also allows for cooling air to pass through.
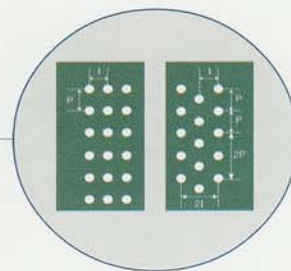

Examples of precise perforation patterns. Perforations can be executed according to customer's specifications.

CHEMICALS

These and many other chemicals are available and in stock at POSCO. We are equipped to package these items into a wide variety of package sizes. Bulk deliveries are also available. POSCO also offers a bulk packaging service. Contact us for details or pricing.

Acetic Acid 56%	Isopropyl Alcohol 99%
Acetone	Isopropyl Alcohol (Distilled)
Ammonia 26°	Isopropyl Alcohol / DI Water Blends
Ammonia Blends 1-10%	Igepal CO 210 Surfactant
Antifoam – Silicone Defoamer	Igepal CO 520 Surfactant
Aromatic 100	Igepal CO 530 Surfactant
Aromatic 150	Kwik Dri Solvent (Shellsol D38, Exxsol D40)
Butyl Carbitol	Lactol Spirits
Butyl Carbitol Acetate	M-Pyrol (N-Methyl Pyrrolidone)
Butyl Cellosolve	Magnesium Nitrate Solution
Butyl Propionate	Malic Acid
Calimulse PRS	Methyl Alcohol (Methanol)
Castor Oil	Methyl Ethyl Keytone
Citric Acid	Methyl Isobutyl Keytone
Cuprous Chloride	Mineral Spirits (Non-Exempt)
Cyclohexanone	Mineral Spirits (Odorless)
D-Limonene	Monoammonium Phosphate
Denatured Ethyl Alcohol 190 Proof	N-Butyl Acetate
Denatured Ethyl Alcohol 200 Proof	N-Butyl Alcohol
Diacetone Alcohol	N-Propyl Acetate
Dibasic Ester	N-Propyl Alcohol
Diethylene Glycol	Oxalic Acid
Diisodecyl Phthalate	Phosphoric Acid 85%
Dipropylene Glycol	Pine Oil
Dow Corning #244 Fluid	Potassium Hydroxide (KOH, Liquid Caustic Potash)
Dow Corning Printers Solution #62	Polyethylene Glycol (PEG 300)
Ethyl Acetate	Propylene Glycol
Ethyl Lactate	Pumice Powder Type FFF
Ethylene Glycol	Rhodia 47V50 Silicone
Gluconic Acid	Sodium Acetate
Glycerin	Sodium Benzoate
Glycol Ether DB	Sodium Hexametaphosphate
Glycol Ether DPM	Sodium Hydroxide 50% Liquid (Liquid Caustic Soda)
Glycol Ether DPNB	Sodium Hypochlorite 15% (Bleach)
Glycol Ether EB	Sodium Metasilicate
Glycol Ether PM	Sodium Silicate N
Glycol Ether PM Acetate	Sodium Xylene Sulfonate (SXS40)
Glycol Ether PNP	Solvent 142 (High Flash Aliphatic Solvent)
Glycolic Acid (Hydroxyacetic Acid)	Sorbitan Monooleate
Heptane	Soy Methyl Ester
Hexane	Star Pol 136 Starch
Hexylene Glycol	Tall Oil, Fatty Acid
Hydrochloric Acid (Muriatic Acid)	Tergitol 15-S-7 Surfactant
Isobutyl Alcohol	Tergitol 15-S-9 Surfactant
Isobutyl Isobutyrate	Tetrahydrofuran (THF)
Isopar E	Tetrapotassium Pyrophosphate (TKPP)
Isopropyl Acetate	VM&P Naphtha
